**WOODI**

## Core values

- We appreciate finnish craftsmanship and know-how
- We develop new products and services by listening to our client's needs and wishes.
- We take responsibility for the environment. We apply ISO 9001-quality standard and ISO 14001-environmental standard in our operations.

## Acknowledgements

- **Children's Day Award 2000** - Acknowledgement for working to improve the environment for children, granted by Finnish Ministry of Education and
- **Entrepreneurial Award 2011** - Granted by the Federation of Finnish Enterprises in Eastern Finland

## High Quality

- Our furniture are long-lasting, which stay stylish and beautiful throughout many years.
- Wooden surfaces have lacquer finish, which endure well heavy usage and is suitable for public premises.
- We use high-pressure laminate in our furniture, which has excellent wear resistance.
- Laminate surface is easy to clean and isn't water permeable.

## Furniture testing

- Kuopion Woodi furniture collections are tested according to standards: SFS-EN 747-1, SFS-EN 747-2, SFS-EN 716-1, SFS-EN 16139, SFS-EN 15373, SFS-EN 1129-1, ISO 7173, ISO 7174-1, UNI EN 1022/98, ENV 1729-2/01, ENV 12520/2000, EN 1728/2000.
- We apply ISO 9001-quality standard and ISO 14001-environmental standard in our operations.

## Guarantee

- All of our furniture is guaranteed for five years, with exception of bean bags, soft furnishings and floor cushions, which have a guarantee of one year. The guarantee covers material and production errors. We guarantee the future availability of our collections for at least ten years.

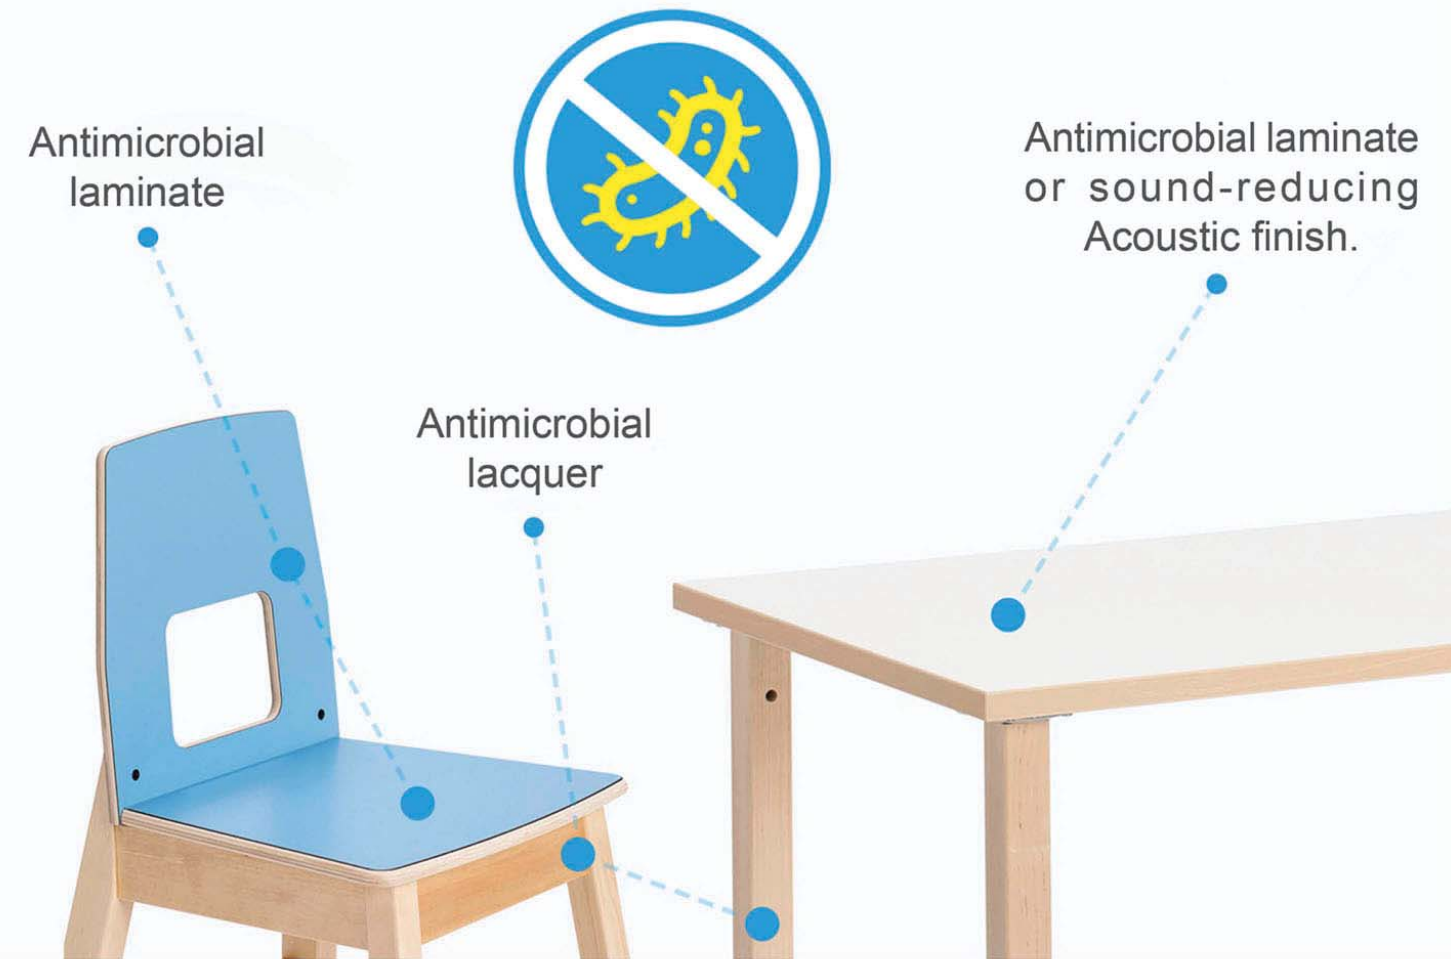

## Materials and colors

- High quality materials and carefully chosen upholstery fabrics according to use purpose.

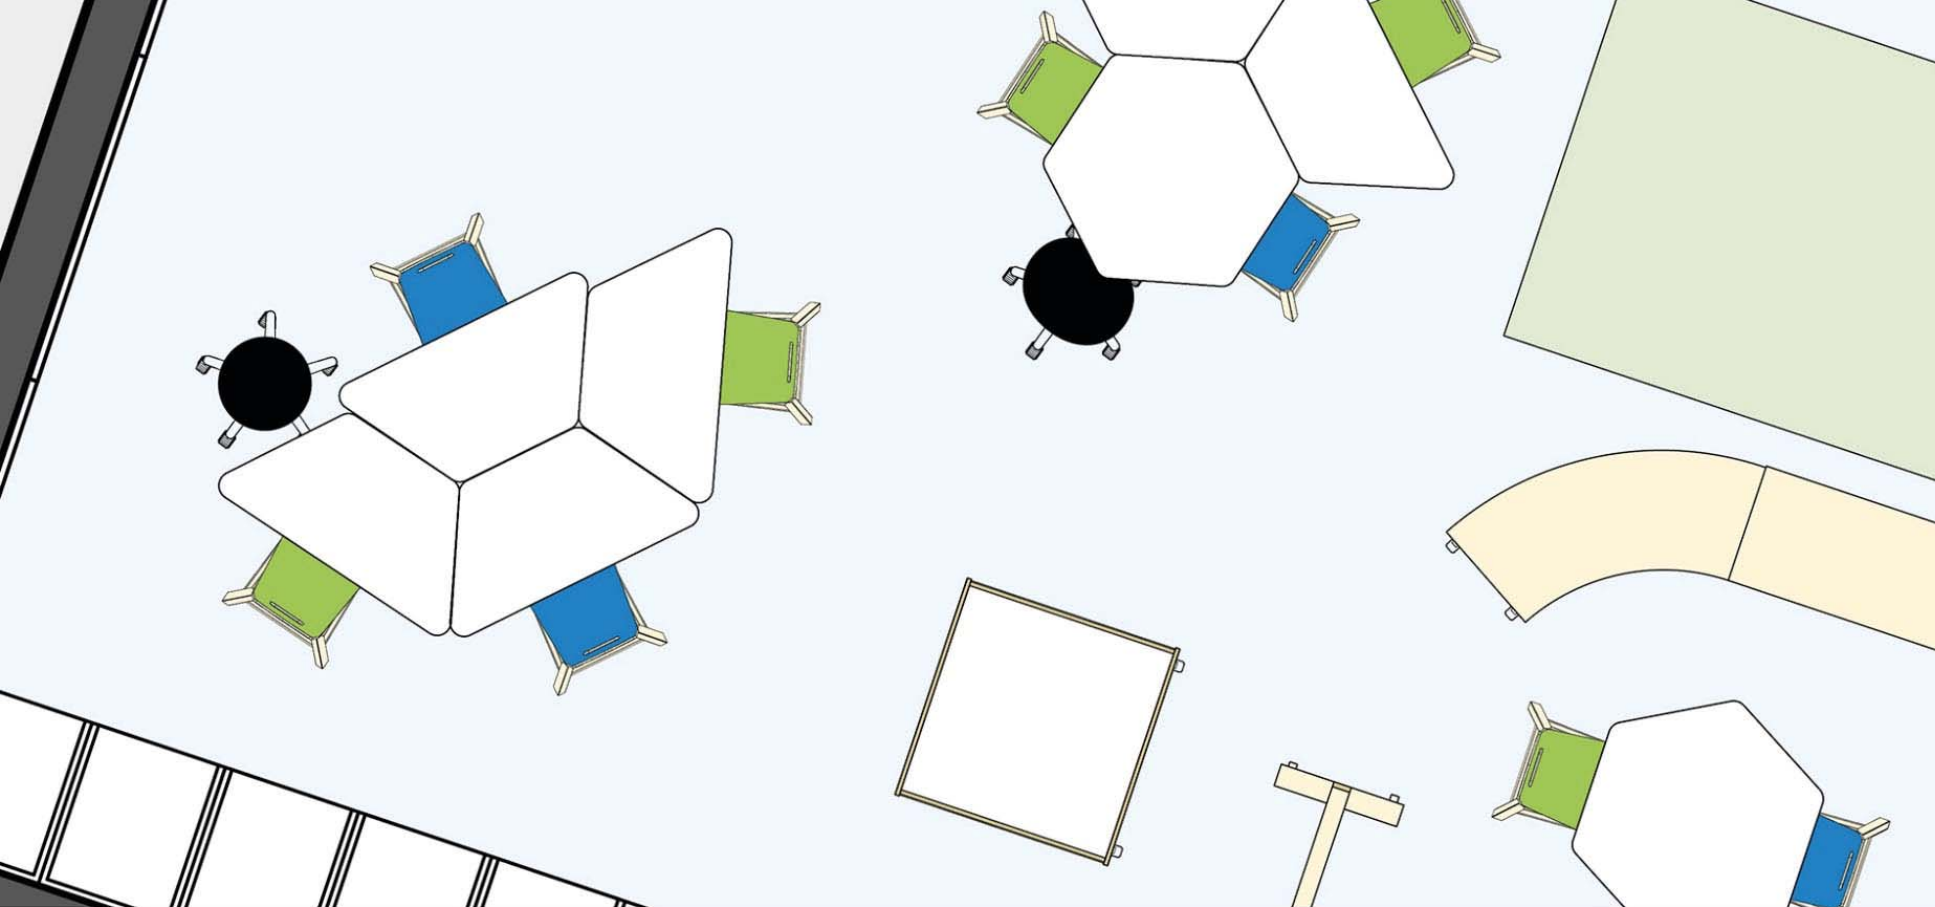

## Antimicrobial furniture

- The whole Woodi furniture selection is available equipped with antimicrobial materials.
- Antimicrobial materials are safe to users and are scientifically proven to slow down the bacteria growth by 99%, which enables to decrease the spreading of bacteria- and virusbased infections.

## Space planning services

- We are happy to assist our clients with furnishing projects, from individual spaces to whole buildings. We execute the plan according to the wishes and the budget of the client using our many years of experience.
- When necessary, we can support our design work by producing 2D and 3D visualisations and room cards, which will help to demonstrate the final look and furnishing.

WOODI

## Modifiable table groups

- Tables are designed by taking into consideration their modifiability: the tables can be used both individually and they can be combined to create groups of different sizes. Due to wheels, the tables are easy to move from one place to another. This enables for the premises to be functional for many different purposes and lay-out can be changed easily according to different happenings.

## Dining room area with benches

- Bench equipped with foot rest is suitable for users of different ages and quantity.

## Suspendable chairs

- Chairs can be hung under a table for storage and to help with cleaning of floors.

## Relaxed working area

- In relaxed working areas people can calm down by reading or just by unwinding for a while. Soft surfaces enhance the acoustics of the room. Children's play can be noisy, but the voices in the space can still be calm despite of the noise due to the acoustics design in the room.

WOODI

## Lobbies and hallways transformed into learning environments

- Already during planning phase, it is advisable to consider lobbies and corridors as a part of active learning environment. They can have different work-, calming down- and exercise areas. Potential wall- and ceiling-mounted furniture has to be carefully planned already during architecture design phase of the building, so that wall and ceiling structures have all the necessary support systems for example for mounting a climbing wall safely.

## Wall-mounted fold-out table to increase versatility of the space

- Wall-mounted fold-out table enables the versatile use of the space by giving open floor space for play and gymnastics, when hanged to the wall in upright position. Space doesn't have to be filled with tables in vain, but they are only used when they are needed by folding them down from the wall.

WOODI

## Many ways of expressing oneself

- Woodi furniture encourages children to express themselves in expressive art, for example, music, verbal or acting.

WOODI

## Role play

- Child learns and develops when playing, because s/he makes perceptions of the world with help from playng. Play enhances child's thinking, social skills, imagination, feeling of emotions and perception of her/himself and of others.
- Woodi's play furniture inspire children to play and can be used to many purposes based on child's imagination.

WOODI

## Sensory room is easy to make

- With curtains and ceiling grid it is easy to make a sensory room within a space, either white or black room. Light, sound and color can be added to the sensory room when necessary to elements and material which are attached to the ceiling grid, and with big tablet. To the tablet can be loaded for example lava lamp or some other sensory application.

WOODI

## Sensory seal

- Sensory seal is adorable for small children to enhance their motoric skills and for relaxing.

## Building and crafts

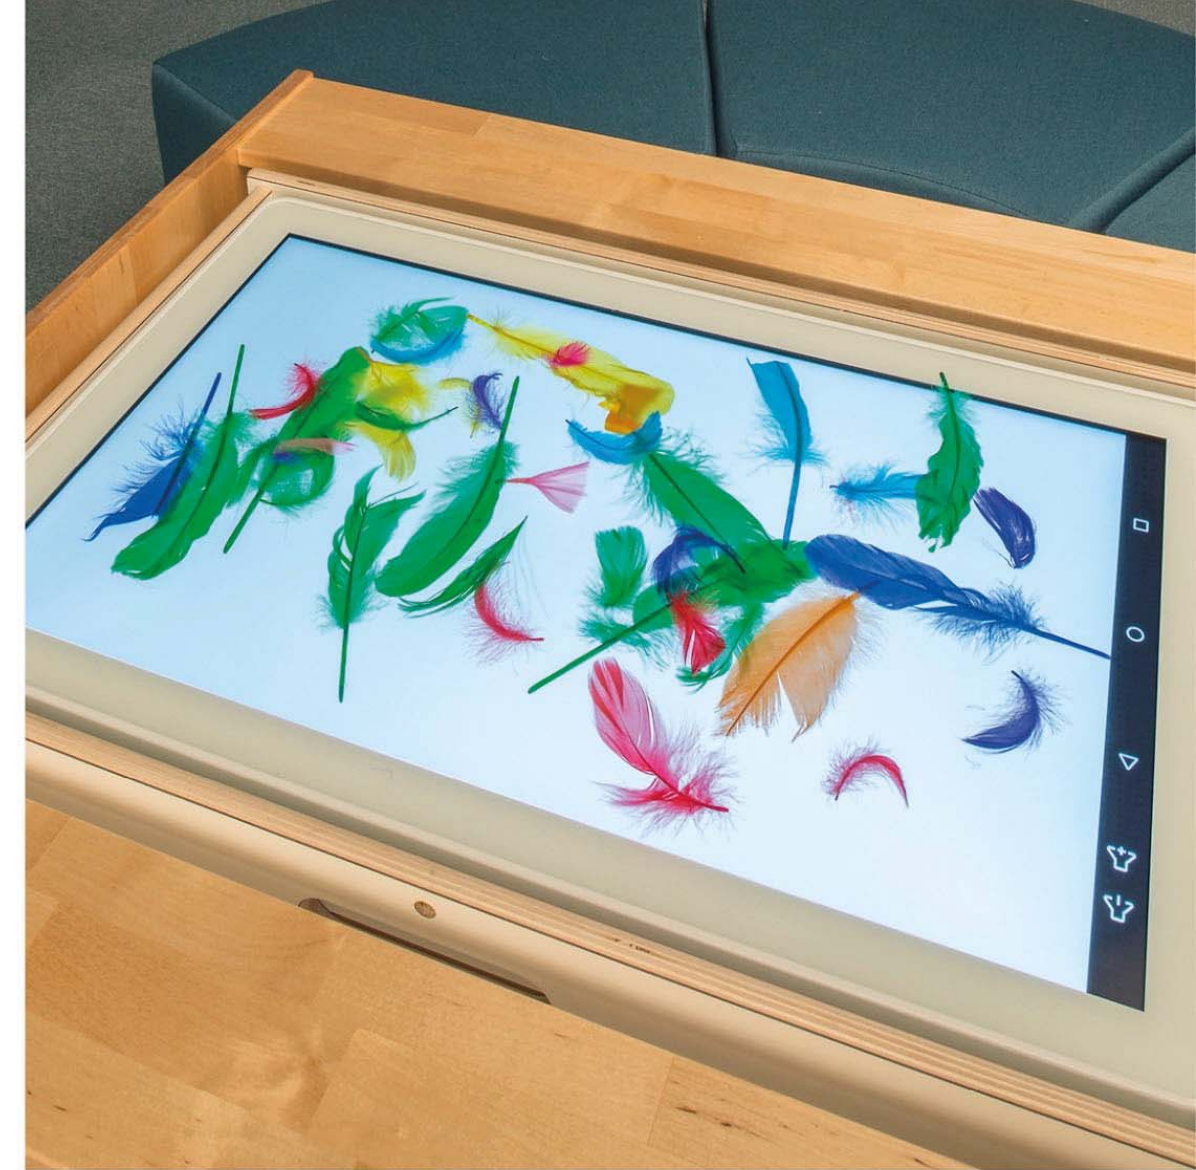

- Building and crafts material find their own places in trolleys with wheels. Building trolleys and tables give room for children's imagination. Child can invent the play him/herself, so that adult hasn't given it directly.

WOODI

## Research trolley

- Technology gets new dimensions with 27" big tablet. Big tablet encourages team work, because up to six children have room around it to play simultaneously with it. Research trolley with big table can be easily transformed to light table. Big table attached to a partition wall works also as a presentation tool.

## Sport areas

- Sport areas can be built throughout the building, so that children can enjoy little exercise moments also when they moving from different premises to another. This way they can adapt exercise into their way of life.
