

LAB CHAIR

Design: Harri Korhonen

Lab for casual meetings and cozy dining!

"We are happy to create something different and we're expected to do so. It was challenging and pleasant to enter into a new kind of a conference environment, one where casuality is emphasized instead of representative look. To use wood as material felt natural in the current spirit as it's considered warm and positive. We still added a quilted loose cushion to strengthen the cozy effect. I was particularly satisfied that we managed to make a chair as comfortable as Lab to be vertically stackable." Harri Korhonen

Lab table is a casual meeting or dining table, available as an individual or a modular version that can be extended endlessly.
