TOOLS FOR ARCHITECTS...

The aim of the collection is to provide architects and interior designers different looking and useful interior objects as tools for modern interiors.

inno^{fi}

Designers:

Harri Korhonen, Interior architect

Jouni Leino, Interior architect

Ari Kanerva, Designer

Susanne Grönlund, Designer

Mikko Laakkonen, Designer

Teppo Asikainen, Designer

Tomi Kapiainen, Designer

Timo Vierros, Designer

Julie Tolvanen, Designer

Steinar Hindenes, Designer

Simo Heikkilä, Interior architect

Jouko Järvisalo, Interior architect

"We strongly believe that a good product has to give more than a look and a function, it has to feel right"

inno^{fi}

O

Ono is a light wooden chair with welcoming design language rooting strongly to the Scandinavian design tradition giving the chair a touch of history. The construction is obvious in its own way, the back carries and lifts the seat from the frame giving the chair a light and inviting expression.

Design: Susanne Grønlund

- a comfortable and light wooden chair with welcoming design language
- the opening in the backrest makes the handling of the chair easy
- launched in Stockholm 2017

Design: Susanne Grønlund

inno^{fi}

- light looking, sculptural wooden small chair for dining and meeting purposes
- available with or without seat upholstery and an optional back pillow
- 2015 GOOD DESIGN™ award

Design: Julie Tolvanen

inno^{fi}

harmonious and cozy 2-seater sofa. Its rounded
perfect for creating peaceful interiors.
light back the tempting and elegant Aura
as a divider. The disclosed structure
characteristic and interesting.

- a harmonious and cozy sofa and chair family
- red dot: best of the best award 2013
- 2015 GOOD DESIGN™ award

Design: Mikko Laakkonen

inno^{fi}

• Aura Wood is a natural extension to the award-winning family launched in 2016

Design: Mikko Laakkonen

inno^{fi}

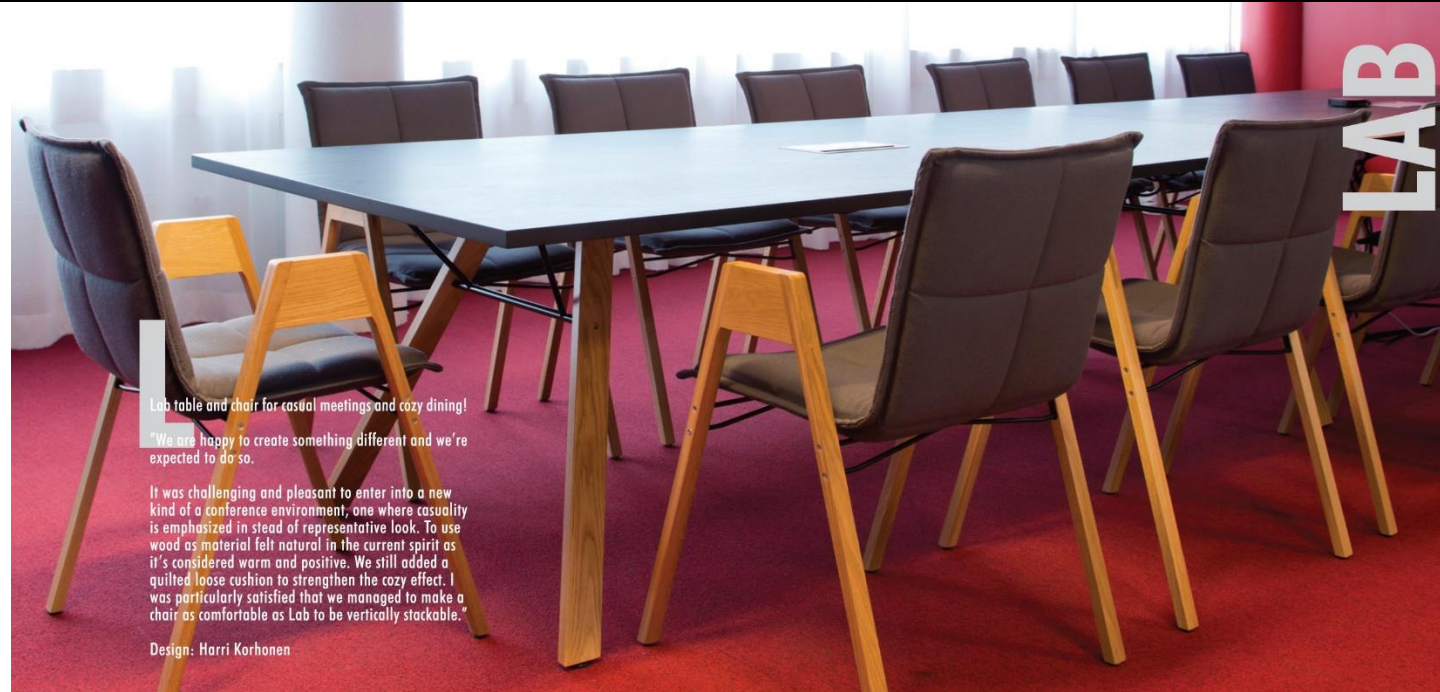

LAB

- Lab XL is a comfortable easy chair
- continuation to the cozy convention of Lab series
- the softness of the chair has been created through a plain quilted seat

Design: Harri Korhonen

inno^{fi}

Lab table and chair for casual meetings and cozy dining!

"We are happy to create something different and we're expected to do so."

It was challenging and pleasant to enter into a new kind of a conference environment, one where casuality is emphasized instead of representative look. To use wood as material felt natural in the current spirit as it's considered warm and positive. We still added a quilted loose cushion to strengthen the cozy effect. I was particularly satisfied that we managed to make a chair as comfortable as Lab to be vertically stackable."

Design: Harri Korhonen

- table and chair series for casual meetings & cozy dining
- individual or modular table that can be extended endlessly
- Lab Meeting was launched in Milan 2016
- 2015 GOOD DESIGN™ award

Design: Harri Korhonen

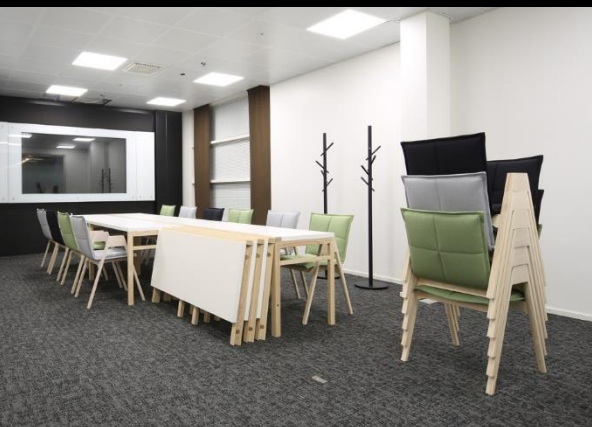

inno.fi

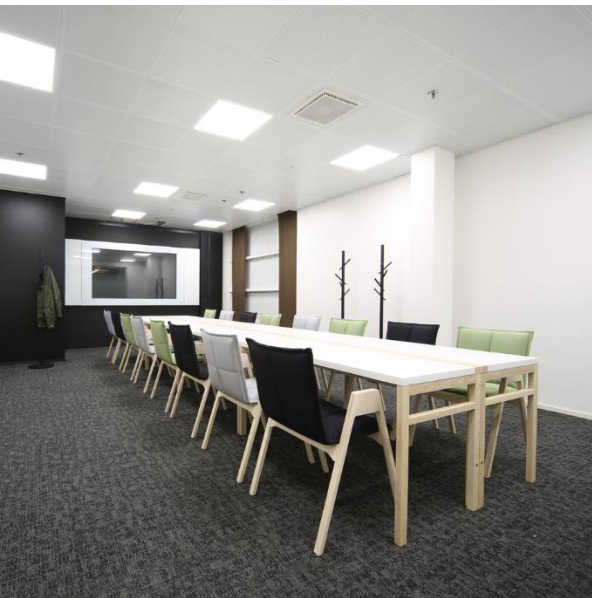

- Lab bar table and chair in two heights
- Lab table system is available in several sizes and heights and cable management options

Design: Harri Korhonen

inno^{fi}

CHAIR: INTRO

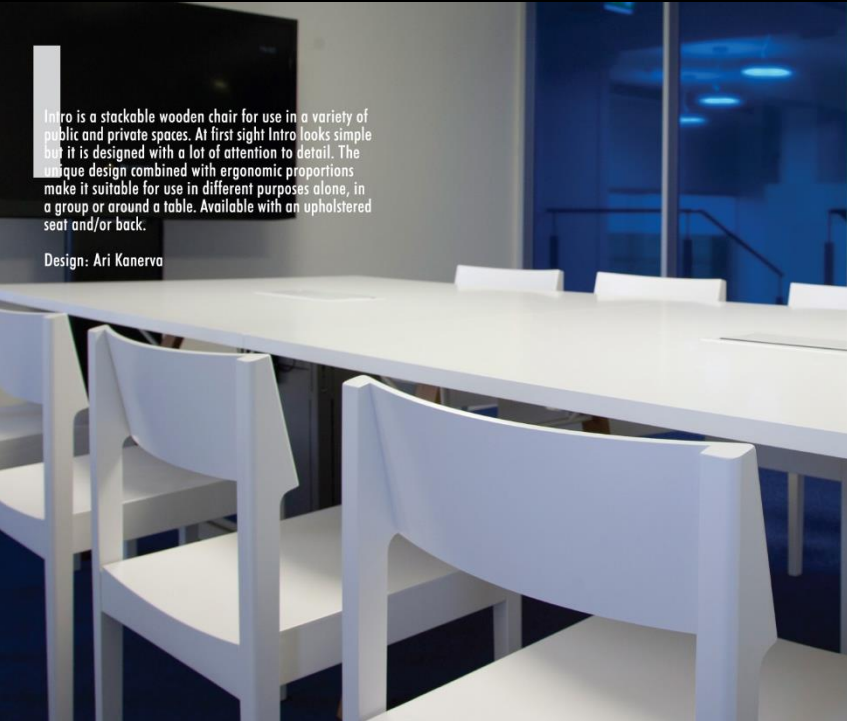

- A totally wooden folding table for multipurpose rooms

Design: Harri Korhonen

inno^{fi}

Intro is a stackable wooden chair for use in a variety of public and private spaces. At first sight Intro looks simple but it is designed with a lot of attention to detail. The unique design combined with ergonomic proportions make it suitable for use in different purposes alone, in a group or around a table. Available with an upholstered seat and/or back.

Design: Ari Kanerva

- stackable wooden chair with or without armrests
- available with an upholstered seat and/or back
- non-stackable version "C" launched in Milan 2017

Design: Ari Kanerva

inno^{fi}

BASSO S MEETING

BASSO S

**GOOD
DESIGN**

Basso is a streamlined chair with remarkable sitting comfort. Basso creates discreet reliability and even playful ambience particularly in meeting rooms. It has a lumbar support embedded in the streamlined profile. The upholstered armrest protects the edge of the table top.

Basso is available in four sizes. M, L and XL comes with a 4-star cross leg (X) or a 5-star cross leg with wheels and gaslift (Z). Optional armrest. Basso S is a stackable small chair.

Design: Harri Korhonen

TABLE: CUSTOM MADE

BASSO M xa

BASSO L xb

BASSO XL zb

- maximum comfort in a minimal shape
- four sizes (S, M, L & XL)
- different leg options

KOLA

KOLA ROCKING CHAIR

- light weight
- cushions for extra comfort and colours
- Kola Bar launched in Milan 2016

Design: Mikko Laakkonen

inno^{fi}

T

Taivu is a light and youthful, totally upholstered lounge chair for lobbies and waiting areas. It is a generous and comfortable chair seasoned with classic shapes. Taivu is easily tailored to fit different public interiors as well as homes.

Design: Mikko Laakkonen

- Taivu launched in Milan 2014

Design: Mikko Laakkonen

inno^{fi}

Free form, solid, smooth, rounded, peaceful... From earlier lighter Bondo versions Bondo D is the new totally upholstered basic module for Bondo – the universally applicable lounge element for public and semipublic waiting areas. The range of compositions may vary from a bench or divan to a 2-seater sofa, thanks to the different shapes of the back elements. Bondo can be combined into different setups or lines or used as single seats. Design: Harri Korhonen.

BONDO D-3

- 2 different seat options
- freeform backrest options (bench, divan or 2-seater sofa)
- side tables in different sizes and leg options

Design: Harri Korhonen

inno^{.fi}

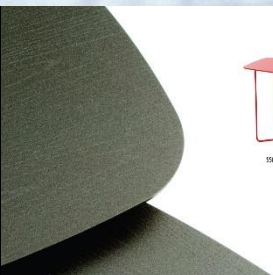

B

Bondo table was originally designed as part of the Bondo sofa series. The light structure, beveled table top edge and soft shape create an aerial impression. The tables overlap each other slightly which allows for organic layouts. The table is available in five sizes including a small side table to be used as a laptop or writing table in groups that consists of sofas and armchairs.

Design: Harri Korhonen.

CHAIR: KOLA

- in-tensive is a forerunner of modular electrified meeting tables, first introduced at Nokia Research Center in 1998

In-tensive is a forerunner of modular electrified meeting tables. First introduced back in 1998 in Nokia Research Center In-tensive has proven itself in meeting rooms all over the world. The modular structure, table tops in different shapes, sizes and materials and a large variety of leg versions make In-tensive suit both modern and classical interiors. All In-tensive tables have a spacious table tray for easy table management and different connections. For total range see separate brochure.

Design: Jouni Leino

CHAIR: INTRO

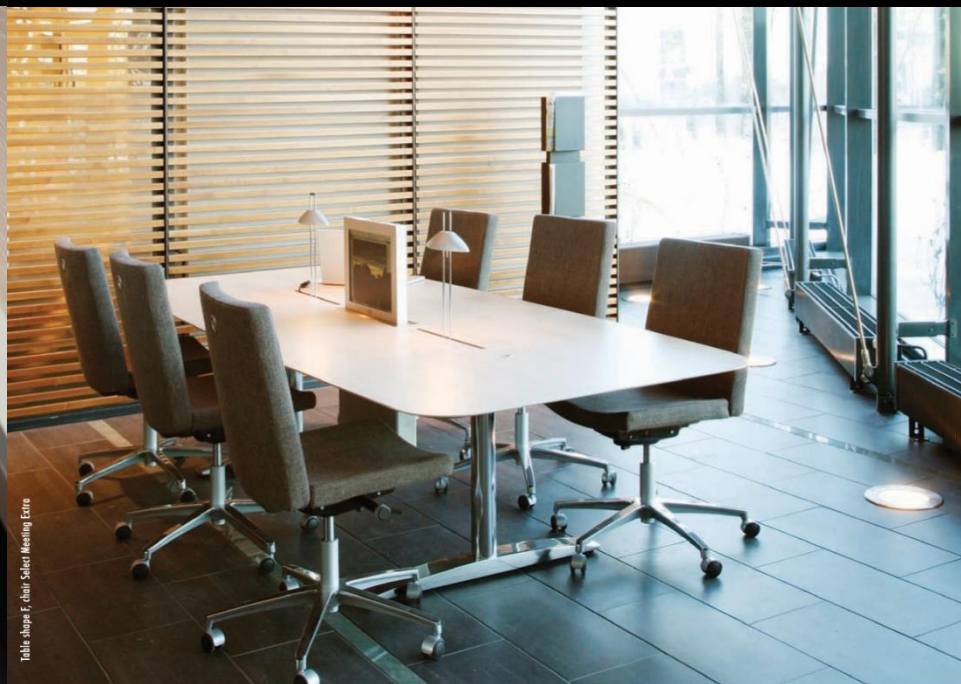

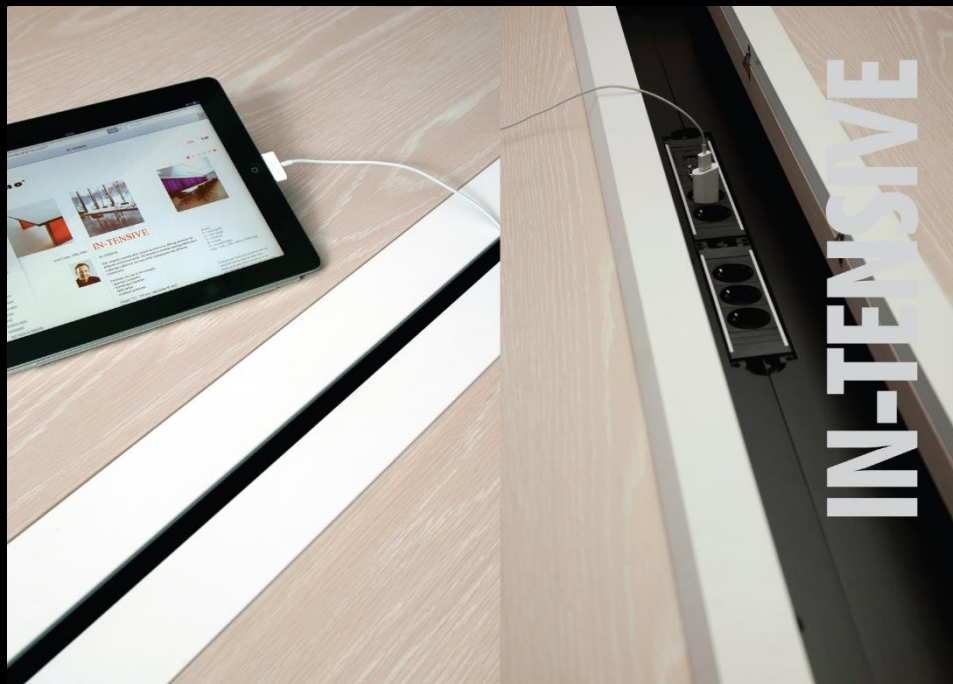

IN-TENSIVE

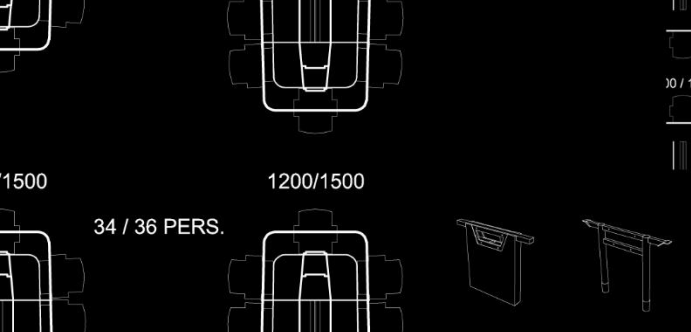

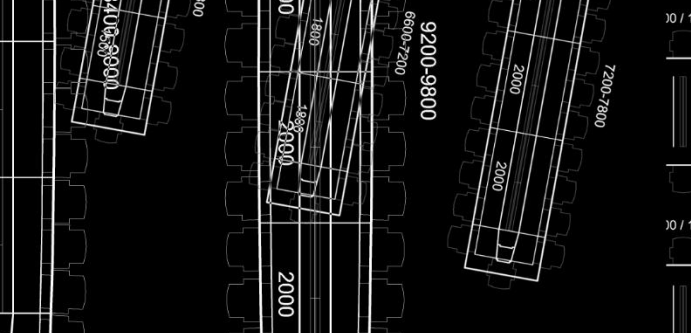

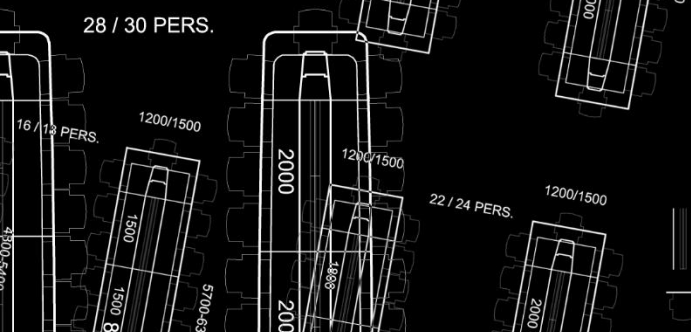

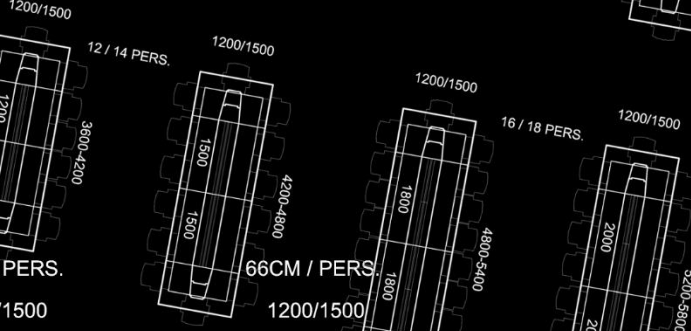

CHAIR: JULIE

• modular structure, table tops in different shapes, sizes and materials and a large variety of leg versions.

• all tables have a spacious cable tray for easy cable management and different connections.

BOX WOOD

B

Box Wood with wooden legs and soft appearance is a new version of the modular Box sofa system. The sofas and the benches that come in different widths and lengths are presented as part of the Cozy Office concept.

Design: Harri Korhonen

O

Oka comes in three versions: hanging, free standing and as a wall attached coat rack. Oka A hangs from the ceiling in a steel wire, doesn't take floorspace and makes cleaning much easier. It's equipped with 6 hooks and a height adjustment mechanism. The free standing coat rack Oka B is equipped with 6 hooks. The wall attached Oka C coat rack is available with either 3 or 5 hooks. Because of the very small width, there is a good possibility to use Oka C in narrow areas like on pillars. It also works in larger rows.

Design: Teppo Asikainen

OKA

OKA C5

OKA C3

OKA B

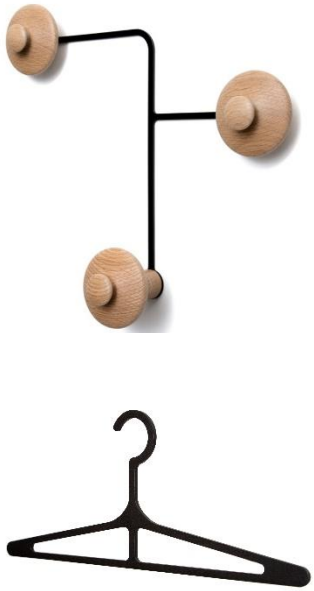

inno^{fi}

- launched in Stockholm 2016
- totally wooden coat rack with pegs shaped as truncated cones that penetrate the stem, functioning as hooks

Design: Mikko Laakkonen

inno^{fi}

- Turner coat rack with three wooden knobs
- One knob is longer allowing use of a hanger
- Aluminium hanger also available

Design: Susanne Grønlund

inno^{fi}

P

Propel is a simple coat rack with a playful spirit. Its innovative structure and wooden hooks combined with fresh colours make it a much anticipated novelty.

Design: Harri Korhonen

PROPEL

- simple coat rack with a playful spirit

- innovative structure

Design: Harri Korhonen

inno.fi

T

Tripla is a coat rack where shape meets function. The same crown is used in three different ways: in a triple leg or single leg free standing coat rack and as a wall attached hook. In the free standing versions you may use the crown for hanging and even store small items like keys, mobile phones etc. Attached to the wall it can be used simply as a hook or with a coat hanger.

Design: Harri Korhonen

TRIPLA C

TRIPLA

- launched in Milan 2011
- light weight
- use the crown to store small items

Design: Harri Korhonen

inno^{fi}

T

Two Step is a multifunctional coat rack for all kinds of public environments. Two Step is lightweight and very well stackable, making it perfect even for temporary use. It can be easily be connected to each other, has 12 hooks and four pegs for hats and can be used with coat hangers too.

Design: Valvomo/Timo Vierros

- light weight
- good stacking capability
- easy connecting
- perfect even for temporary use

Design: Timo Vierros
